

## A Garment Talk From Fitts' Store.

Our object of this little talk is to make you better acquainted with the class of Garments we handle—to show briefly where they excel, to point out their superior points in such a way that you will become enthusiastic, even as we are, and a firm believer in every garment coming from this store.

### THE STYLES

The first point to attract your attention is style—fashion. No matter what particular style you select you may be sure of a style absolutely correct, either styles brought from Paris or copied from Paris models. More than that the styles are attractive, a style adapted for every figure.

### THE FABRICS

This is a point on which we are particular. The style might be right but utterly spoiled in the fabric selection. We try to select the fabric best suited to the style of garment. Certain styles might look well only in a black fabric; such being the case we would not buy them in any other cloth. Great care is taken in this respect.

### THE FIT

The quality, the careful choosing of the fabrics and the workmanship have as much to do with the fit as our careful choice of models. The fit is all-important. When you try on one of our garments notice the fit at the neck and shoulders, note how well the back is fitted. Notice all the points where they must fit to look right and you'll think the more of the garments from Fitts' store.

### NOW THE PRICE

Altho the foregoing points have been mentioned briefly you can see how they make for special values. In no case have we sacrificed in quality or workmanship in order to sell you garments that do nothing but look well. Cheaper garments at less prices can be had, but nowhere can equal values be duplicated at the same prices. And now, with an abundance of enthusiasm over the styles we show and confidence in our values, we ask your kind criticism.

New Coats, New Suits, New Skirts, New Waists.

And still newspapers must remind their readers about once in so often that unclean communications are simply thrown into the waste basket. Sometimes this is done robustly, because the note may bear all the earmarks of being sent in good faith, and may convey an interesting piece of news. But if the news cannot be verified in another way, it cannot be printed, simply because newspapers cannot afford to take the risk of printing libelous, scandalous or untruthful matter that in all too often concealed under the guise of an innocent news paragraph—St. Albans Messenger.

**MANY AFFLICTED.**  
It is surprising what a lot of people limp about suffering from corns. Suffering from such a cause is really unnecessary. Corns can be removed in two or three days without the least pain, injury or inconvenience. We understand that C. H. Kendrick & Co., Druggists, have something that is a sure cure for corns. If you are afflicted, better see them at once.
